MATEN Technology Group

DIGITAL PROJECT MANAGER AND OPERATIONAL SYSTEMS DESIGNER

Sadegh Vahidi

At MATEN Technology Group, I manage digital projects from market research through development and launch.

DIGITAL PROJECTS · RESEARCH · OPERATIONS

About me

Digital Project Manager & Operational Systems Designer

I manage digital projects from market research and requirements analysis through development and adoption.

My focus is turning scattered processes into repeatable, scalable systems — from content strategy to custom digital platforms. As the founder of MATEN Technology Group, I work on research, knowledge management, process automation and digital delivery.

University of Tehran

Financial Management

5+
Years of professional experience

7+
Organizations and brands

4
Focus areas: projects, research, process and operations

WHAT I DO

Core capabilities

From problem definition and market research to strategy, content production and continuous improvement — with process ownership and team coordination.

Proven

Market & competitor research

Market research, competitor analysis and decision-oriented reporting

Sample: Iranian carpet-market study

Proven

Content strategy & process

Content strategy, editorial calendars, briefs and team structure

30+ Ronix articles + 12+ Poolaki articles + a standard publishing workflow

Proven

Content production & quality control

Content production, editing, quality control and continuous improvement

5+ Kheyli Sabz/Maz books + English Lediamont content

Proven

Digital platform design & management

Architecture, requirements definition and development-team management

Sabzevar repair platform

MATEN

MATEN Technology Group

MATEN is the technology group through which I manage content, research and digital operations — giving clients one accountable point of contact from problem definition to trackable delivery.

Literal meaning of MATEN Author of a text.

Research & data analysis

Market research, competitor analysis and decision-oriented reporting

Processes

Process design & systems thinking

Decision flows and repeatable operating workflows

Knowledge

Knowledge management

Structuring organizational knowledge for fast access

Automation

Process automation

Designing tools for recurring workflows

Quality

Evaluation & quality control

Quality criteria and standards for reliable outputs

PROFESSIONAL PATH

Experience

Part 1

MATEN Technology Group

Oct 2025 — Present · Active

CEO & Digital Project Manager

- Designed the operating architecture and six internal processes, reducing friction in cross-team handoffs
- Built a decision-oriented project-prioritisation framework for concurrent delivery
- Designed the research-to-publication workflow, turning ambiguous questions into decision-ready reports
- Launched four operating modules: projects, research, knowledge and automation
- Developed a knowledge-management and workflow framework for faster access to project information
- Designed the architecture and led development teams for a customer-service platform

Managed projects (at MATEN): — Sabzevar repair platform (project management and requirements analysis)

Poolaki

Oct 2025 — Sep 2026 · Remote

Senior Content Specialist

- Coordinated a team of 3–4 writers and editors and delivered monthly outputs on time
- Designed the research-to-publication process: briefs, editing, quality control and publishing
- Owned the delivery of 12+ specialist articles in personal finance and accounting

Ronix Tools

Apr 2024 — Jan 2026 · Remote

Content Specialist

- Produced 30+ specialist articles on industrial tools
- Designed the research, writing and publishing workflow

Lediamont Shop

Nov 2023 — Present · Project-based, remote

PROJECTS IN PROGRESS

Three projects in development

These three initiatives are in development. Sensitive implementation details are not public.

01 In progress

Improving Persian speakers' access to professional psychotherapy

Independent nonprofit initiative

Developing an approach to reduce access barriers; implementation details remain confidential.

Current status: In development — active.

02 In progress

Sabzevar repair-request portal

Service platform

An operational version of the system is in use, while development of a more comprehensive version for submitting, routing and tracking repair requests in Sabzevar continues.

Current status: In development — active.

03 In progress

Peyvand: platform connecting job seekers and employers

Career media and platform

A free, trusted path connecting job seekers and employers with practical career content

Current status: In development — active.

RESEARCH

Research and academic work

The Problem of Agency: A Hazy Narrative of the Mongols

16 Jun 2026 · Ensaf News

A critical analysis of agency in historical narratives of the Mongol period, examining how human agency is represented in classical texts and contrasted with contemporary narratives.

ensafnews.com

How living conditions and climate shaped South Khorasan textiles

02 Aug 2023 · Client: Shara Ghasemi, University of Art

Examined the impact of climate and environmental factors on South Khorasan textiles through two sociological theories. The findings point to a strong climate imprint on the works.

virgool.io

A comparative study of Iranian and Iraqi Kurdistan carpets

03 Sep 2023 · Client: Shara Ghasemi

Compared textile motifs from Iranian and Iraqi Kurdistan, classifying them as geometric, animal and botanical; 36 designs showed meaningful similarities in geometric motifs.

Microfiction and shathiyat: differences and affinities

04 Feb 2023 · With Mohammad Sang-Sefidi

Reviewed the theory of rhetorical shathiya and compared it with microfiction, focusing on the poetic and literary value of both forms.

Rumi's shift from narrator to preacher in "The Slave Girl and the King"

05 Jul 2023 · With Mohammad Sang-Sefidi

Mapped the moments when Rumi's position shifts from narrator to preacher using Gérard Genette's narratological concepts.

Suggestive sounds in the story of Rostam and Esfandiyar

06 Jan 2023 · With Mohammad Sang-Sefidi

Analyzed the sound texture and suggestive power of phonemes in Ferdowsi's Shahnameh using Maurice Grammont's theory.

Academic editing: Khorasan school and Iran's foreign policy

1405 / 2026–27 · Quarterly Journal of Greater Khorasan Research

Academic editing of a paper in political philosophy and foreign policy, including APA 6th style, 182 half-space corrections, 64 punctuation fixes and 82 citation corrections.

Marketing Iranian carpets

08 Oct 2023 · Client: Shara Ghasemi

Identified the needs of producers, sellers and buyers and proposed an AI-supported model for pattern personalization and digital marketing.

LET'S WORK TOGETHER

Have a project in mind?

For project management, website or platform design, market research, content strategy or systems work, send a message and describe the problem, current stage and main constraint.
